

THE GLOBAL INITIATIVE
AGAINST TRANSNATIONAL
ORGANIZED CRIME

Digital dangers - cyber solutions?

What are the challenges that online markets pose to the fight against IWT and where might solutions lie?

Join us for a live Q&A on Spreaker about the challenges posed by online markets to the fight against the illegal wildlife trade. We'll be talking about trends in online trade, the debates around regulation of tech giants and the markets they host, and the challenges posed to journalists and researchers trying to understand these things. We'll also be talking solutions - fielding questions on the 'Dynamic Data Discovery Engine' a tool we've been building to help find illicit sales online, and talking about the punch that journalists can deliver as we explore some stories in our 'Media Matters' online map.

Speakers:

Carl Miller, Research Director, Centre for the Analysis of Social Media, Demos
Roxanne Joseph, Data Journalist and Associate of the Oxpecker's Investigative Environmental Journalism Centre

Moderator:

Simone Haysom, Senior Analyst, GITOC
