SIDE EVENT

**16 May 2024
13.00–13.50**

**Venue:
MOE07, Vienna
International Centre**

Organized by the Global Initiative Against Transnational Organized Crime (GI-TOC) and supported by the European Union (EU).

DATA COOPERATION IN ENVIRONMENTAL CRIME RESPONSES – LEARNING FROM OTHER CRIMINAL MARKETS

This event is organized by the ECO-SOLVE programme, which is funded by the EU and implemented by the GI-TOC, and will explore the role of data in environmental crime responses with an emphasis on the importance of effective data cooperation. It will bring together a diverse panel to describe the data deficit in environmental crime, discuss promising new avenues for disruption, and draw on experience with other criminal markets to identify synergies that can be leveraged to tackle environmental crime. This panel will focus on the importance of international cooperation and technical assistance to prevent and address environmental crime, highlighting the need to enhance the work of the CCPCJ in implementing the 2030 agenda of the Sustainable Development Goals.

Speakers

- Opening remarks, Representative of the EU
- Simone Haysom, Director of Environmental Crime and Head of ECO-SOLVE Programme, GI-TOC
- Tanya Wyatt, Lead Researcher on Crimes that Affect the Environment, Research and Trend Analysis Branch, UNODC
