About the conference

2020 marked the start of a global pandemic and the world's first 24-hour virtual conference on global organized crime, #OC24. Since then, five editions of OC24 have taken place, bringing together researchers and practitioners from all over the world at a scale and in a way that a physical conference cannot match.

With various and innovative session formats, the previous five editions of #OC24 in 2020, 2021, 2022, 2023 and 2024 attracted more than 10 000 participants worldwide.

This year, we're excited to host a more focused version of the conference, which will bring together 100+ leading organized crime scholars and practitioners to present and discuss a wide range of topics, including human trafficking, drug trafficking, cybercrime, corruption, and the impact of climate change on organized crime worldwide.

English is the official language of the OC24 conference. If you or your panel's speakers plan to present in another language, please arrange your own interpreters for the session. Kindly inform us in advance if you'll be using interpreters so we can ensure the necessary technical support and register them in our system.

This year's event will feature 22 sessions across two parallel streams. This means the selection process will be more competitive, as we aim to ensure a broad and balanced program that reflects diverse topics and geographic representation. We appreciate your understanding and encourage you to submit proposals that are clear, concise and compelling.

Please send submissions no later than 15 September 2025.
