

# GI-TOC AT THE 2026 INVESTING IN AFRICAN MINING INDABA

## ORGANIZED CRIME AND THE EXTRACTIVE SECTOR

9-12 February 2026

Venue: Cape Town  
International Convention  
Centre (CTICC)

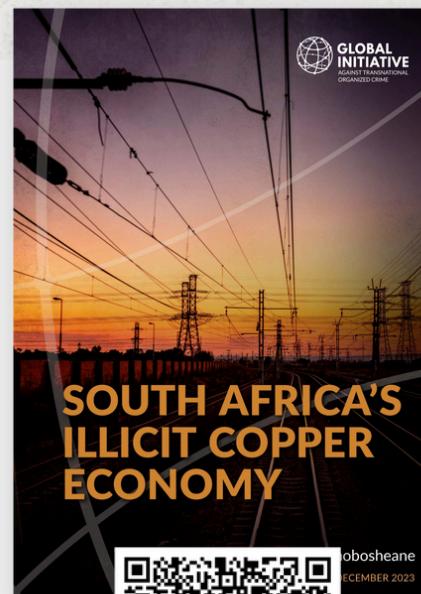

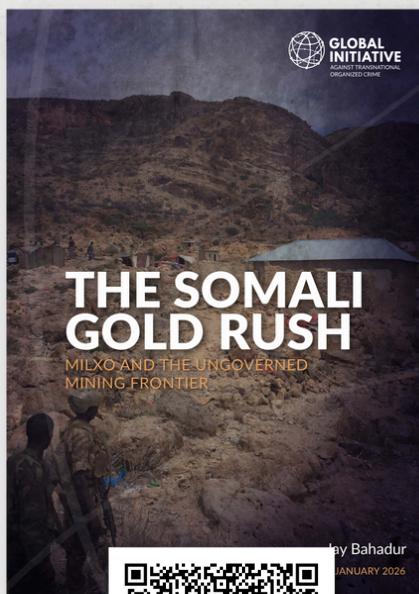

The extractive sector does not operate in a vacuum. Organized crime is increasingly intersecting with legitimate extraction, transforming mineral resources into engines for illicit financial flows and regional instability. The Global Initiative Against Transnational Organized Crime (GI-TOC) has conducted extensive research into organized crime connected to the extractive sector, providing critical evidence-based analyses identifying trends and emerging threats, and policy recommendations to strengthen governance and foster resilience.

GI-TOC will have a delegation at this year's Mining Indaba that will be attending a series of events.
